8. Market how supplied.
9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.
10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stock.
11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.
9. *Crops sown*.—Nil.
Agricultural Operations.—Nil.
Standing Crops.—1. Wet.—Paddy and sugarcane are fairly in good condition. Paddy crop is affected in Mylanakanahalli and other villages, Kasaba Circle No. I, Channapatna Taluk, on account of Paddy pest.
Dry Crops.—Ragi, Avare, Thogari, Til, Groundnut, Horsegram are fairly in good condition. Dry crops of Tubagere, Sasalu Hoblies in Doddaballapur Taluk, Satnur, Uyyamballi and Kodihalli Hoblies of Kankanhalli Taluk, Tavarekere, Kalya and Dodmudigere Circle of Magadi Taluk suffered on account of failure of rains in August 1951 when crops were tender. Late rains are of little help to these crops in the above Hoblies.
Availability of water.—There is fairly sufficient store of water for wet crop in Bangalore, Doddaballapur, Kankanhalli, Magadi, Anekal Taluks and Kanva Reservoir and Ramanagaram Taluks. Some of the tanks of Channapatna Taluk viz., Hanganur, Santhemogenahalli, Neelasandra and Sunnaghatta Tanks and some tanks in Nelamangala Taluk have not received sufficient supply of water.
10. Public Health is generally good except for the prevalence of Plague at Ramanagaram Town. Action is taken to prevent the spread of the disease. Cattle are generally healthy.
- Harvest*.—Ragi crop (harvest) has just commenced in few parts of Channapatna Taluk. Groundnut is being harvested in Devanahalli Taluk.
11. Drinking water and fodder are available. Coolies find sufficient labour.

KOLAR.

8. Moderately supplied.
9. (1) *Seeds sown*.—Nil.
(2) *Standing crops*.—The condition of standing crops such as Ragi, Avare, Thogari, Horsegram and Paddy is not satisfactory.
(3) *Crops harvested*.—Same, groundnut are being harvested.
10. There was a rainfall of over an inch in the Taluks of Goribidnur and Malur and a small amount of rain in other Taluks except in Kolar and Srinivasapur. The necessity to start relief works to provide employment is very keenly felt and allotment asked for and promised is awaited every day.
11. People and cattle are reported to be healthy but for prevalence of Cholera in some parts of Bangarpet Taluk. Preventive measures have been taken to check the spread of the epidemic by the Public Health Department.

TUMKUR.

8. Fairly well supplied.
9. *Seeds sown*.—Sowing of Jola in some parts of Tiptur Taluk.
Standing crops.—The standing dry crops are reported to be fair in all the Taluks except in Sira, Pavagada, Madhugiri and Koratagere Taluks where crops have suffered badly. Rain is badly needed in all parts of the District. Paddy is reported to be good in parts of Tumkur, Gubbi, Kunigal, Chiknaikanahalli, Koratagere and Turuvekere Taluks. Sugarcane in parts of Gubbi and Kunigal Taluks is also reported to be in good condition.
Crops harvested.—Vyshaki paddy in parts of Chiknaikanahalli, Kunigal and Gubbi Taluks and Yade Ragi in

parts of Sira Taluk and Irrigated Ragi in parts of Madhugiri Taluk.

10. *Public Health*.—Public Health is generally good, except for the prevalence of Plague in Byalakere and Kandikere Villages and rate falls in Lakkanagondanahalli Village in Chiknaikanahalli Taluk and in Madapura Village of Gubbi Taluk. Needful action is reported to have been taken to check the spread of the epidemic.

11. *Cattle*.—Cattle are reported to be generally healthy. Water and fodder are available. The State Forests have been thrown open for free grazing. Labour is available for Agricultural Classes.

MYSORE.

8. It is reported that the markets are normally well supplied in all the taluks of the District during the week.
Seeds sown.—It is reported that Bengalgram and coriander were sown in the taluks of Nanjangud, Heggaddevankote and Mysore, and Horsegram in Heggaddevankote and Mysore Taluks.

9. *Standing crops*.—Such as paddy, ragi, castor, togari, horsegram, sugarcane and cotton, are reported to be generally in good condition. It is reported that paddy crop in some parts of T. Narasipur Taluk is reported to have been affected by a kind of pest known as paddy Gall Fly (ಕೂಳೆವೆ ರೋಗ) and the Agricultural Department are taking necessary remedial measures to check its spread. It is further reported that paddy in one village of Krishnarajanagar Taluk is affected by Grasshoppers, Agricultural Department are taking necessary measures to check its spread.

Crops harvested.—It is reported that groundnut and chillies are being harvested in Nanjangud, Hunsur and Mysore Taluks and Ragi in Yelandur, Chamarajanagar and T. Narasipur Taluks.

10. (1) Prospects of the season are improving after recent good rains.

(2) There was fairly good rainfall in all the taluks of this District except in Hunsur, Periyapatna and Heggaddevankote Taluks.

(3) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(4) Sufficient quantities of food-grains are made available all over the District.

(5) Public health is reported to be generally good except for the prevalence of plague in a few villages of Mysore and Heggaddevankote Taluks and small-pox in a few villages of Hunsur Taluk; necessary preventive and remedial measures are being taken to check the spread of epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available all over the District.

MANDYA.

8. Well supplied.
9. The standing crops of sugarcane in Visvesvaraya Canal in Area, paddy in tank and nala atchkats and dry crops in several parts of the District are reported to be in good condition. There was failure of ragi and other dry crops in large extents all over the District due to failure of timely rain in the previous months. Good yield cannot also be expected from the surviving dry crops.
10. Prospects of the season are reported to be satisfactory.
11. The public health is reported to be generally good throughout the District. Cattle are reported to be healthy. Fodder and water are available in sufficient quantities in all the taluks of the District.

HASSAN.

8. Markets are well supplied.
9. The condition of standing crops of paddy, ragi, sugarcane, is fair. Rains are urgently required throughout the District. Sowing of Horsegram, Bengalgram is done in Chennarayana, Hassan and Holenarasipur Taluks. Rain is badly needed.
10. Prospects of the season are fair. The rains are required.

11. Cattle were generally healthy and fodder available. There is the prevalence of "Metraguttu" in B Katihalli and Rachienahalli in Kasba Hobli of Hassan Taluk. Black-quarter is prevailing in Morasu Hosahalli, Morasukoppal, Muttigo, Bettadahalli, Chokanahalli of Alur Taluk. In both the cases preventive measures are being taken by the Veterinary Department.

SHIMOGA.

8. Well supplied.

9. The standing crop is generally fair in all the taluks. But the paddy crop in some parts of the Chennagiri Taluk and ragi and paddy crops under the atchkat of tanks in Bhadravathi Taluk are not in good condition on account of insufficient rainfall. Ragi and jola in Chennagiri Taluk; groundnut, save, ragi and paddy in Bhadravathi Taluk and short term paddy in a few parts of all the taluks except in Hosanagar Taluk were harvested.

10. Prospects of the season was generally fair. Cholera is reported to have been prevailing at Doddaghatta and Kabbala villages in Chennagiri Taluk. Preventive measures are reported to have been taken by the Health Department.

Animal disease.—"Glanders" is reported to be prevailing at Kulenoor, Chennagiri Taluk.

Preventive measures were taken.

11. Water and fodder were available. Cooly classes were finding sufficient labour.

CHIKMAGALUR.

8. Markets were fairly well supplied. Prices were high.

9. (1) *Standing crops.*—Paddy, ragi, and sugarcane in Chikmagalur Taluk; jola, ragi, paddy, sugarcane, coriander, til, avare, togari, save, cotton and groundnut in Kadur and Tarikere Taluks; paddy in Koppa, Mudigere and Sringeri Sub-Taluk; paddy and sugarcane in Narasimharajapura Sub-Taluk, were the standing crops. Standing crops in Kadur Taluk were withering for want of rains. The standing crops in Tarikere Taluk are reported to be in need of rains.

(2) *Seeds sown and transplantation made.*—Sowing of Bengalgram in some parts of Tarikere Taluk was completed.

(3) *Crops harvested.*—Mungar jola in parts of Tarikere, coriander and jola in Kadur Taluk were being harvested.

10. Prospects of the season are reported to be not so good. Rains were needed for the standing crops in Kadur and Tarikere Taluks.

11. Public health is reported to be generally good during the week under report.

Cattle were generally healthy except in Tarikere Taluk, where it is reported that one buffalo died by ("ಪೆಟ್ಟು") disease in Begur Village of Ajampur Hobli. The authorities of the Animal Husbandry Department have been requested to take necessary preventive measures in the matter.

CHITALDRUG.

8. Markets are well supplied except the controlled commodities.

9. *Sowing.*—Sowing of bilijola, and cotton in the black cotton areas of the Chitaldrug, Hiriyur, Holakere, Molakalmuru and Hosadurga Taluks, is reported to be in progress. The sowing of summer paddy under a couple of tanks in Chellakere Taluk is going on.

Standing crops.—The condition of the dry crops such as taje and navane is reported to be not satisfactory in Chellakere Taluk. Karthiki paddy under irrigation wells, nalas and tanks in Chellakere Taluk; paddy, jola, navane, saje, harka, ragi, cotton and sugarcane in Hiriyur Taluk; ragi, jola, til, saje, cotton, paddy and horsegram in other taluks are reported to be fairly in good condition but are in urgent need of rains.

Harvesting.—Sugarcane is being harvested in Hiriyur Taluk. Jola and navane in dry lands; jola and ragi in Bagayet and wet lands are being harvested in Molakalmuru Taluk. Jola, saje, navane are being harvested in Jagalur Taluk. Save and navane is being harvested in Hosadurga Taluk. Til, groundnut and kesari jola are being harvested in Davangere Taluk.

10. Cooly classes are finding sufficient labour throughout the District.

3 The cattle are reported to be generally healthy except for the prevalence of "ಪೆಟ್ಟು" in Hiriguntanur Village in Chitaldrug Taluk, and "Blackquarter" in Devarahally Villages in Chalakere Taluk. The authorities of Veterinary Department are reported to have been addressed to take preventive measures.

11. Public health is generally good except for the prevalence of Cholera in Giriypura and Bethur Kalpanahalli Villages in Davangere Taluk and Yekkegondi and Salakatte Villages in Harihar Taluk. The authorities of the Health Department are reported to have been addressed to take immediate preventive measures.

BANGALORE.

399 Dated 30th October 1951.

N. V. SIDDALINGAPPA,

For Director.

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, WEEK ENDED 25TH OCTOBER 1951.

A total of 26 attacks with 3 deaths from Plague was returned from 11 villages in 7 taluks in 5 districts during the week against 8 attacks with 6 deaths in the previous week. The Cities of Bangalore, Mysore and Kolar Gold Fields reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were 5 attacks with nil deaths and 26 attacks with 9 deaths respectively.

A total of 20 attacks with 3 deaths from Small-pox were reported from Kolar Gold Fields and from the Towns of Narasimharajapura and Pandavapura and from the Taluks of Bangalore South, Malavalli, Shikaripur and Srirangapatna.

Seventy-one attacks with 28 deaths from Cholera were reported from Nagamangala Town and from the Taluks of Bangalore North, Bangalore South, Channapatna, Holalkere, Harihar, Ramanagaram and Shimoga.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 212 (68 in hospitals) for 7 days representing a calculated death-rate of 13.9 (9.5 excluding hospital deaths) per mille of population (annual basis) as against 22.8 (14.5 excluding hospital deaths) for the corresponding week of last year. Classified according to causes, the deaths numbered 1 under Malaria, 1 under Typhoid, 2 under Other Fevers, 26 under Dysentery and Diarrhoea, and 182 under All Other Causes. The reported mortality was very low.

The total mortality for Mysore City was 80 (19 in hospitals) for 5 days representing a calculated death-rate of 23.6 (18.0 excluding hospital deaths) per mille of population (annual basis) as against nil (nil excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were: Typhoid 2, Other Fevers 23, Dysentery and Diarrhoea 6, and All Other Causes 49. The reported mortality was very low.
